

The **WINDOWVEND™** is a compact, convenient Water Vending unit that installs easily into a window, wall or kiosk.

The **WINDOWVEND™** unit is coin operated and includes a lockable cash box, that can be accessed from inside the store through a lockable rear cabinet door. This gives you triple security.

This self-service system gives your customers 24-hour access to premium fresh water, 365 days a year.

The **WINDOWVEND™** unit is an investment with an unlimited profit potential you cannot afford to pass up.
